Accompanying Laboratory Course: EEES-1020, 1 credit hour, is an optional laboratory course which follows the outline for this lecture course. This companion course focuses on mineral and rock identification, map reading, and analysis of geologic structures. The student is not required to take both courses, nor do both courses have to be taken simultaneously. However, you will find the visual and "hands on" nature of EEES-1020 very helpful for understanding the material in this course.
